

SDLC Task-1

Name - Chinmayee Rana
Regd. No. - 2141018149
Section - CSE - 'Z'

Objective : — Create a simple use-case diagram for a library management system

A library management system is a software that helps manage the daily activities in a library like issuing books and managing members.

There are two main actors in this system.

- Librarian - manages book check-out
- member borrows & returns book

main use cases include : —

- Check out book done by both librarian & member
- Return book - performed by the member
